with these tasks is a structured process designed to engage the student leaders (SLLs) in the programming process of Senate. It serves as a road map for the cultural programming, and ensures cooperation of SLLs with their advisors.

In response to recommendations from the Fall 2016 Senate Survey, an additional role for SLLs is to help coordinate Senate. This cooperative and collaborative program allows SLLs to connect with Senate through various avenues, including their engagement and participation.

Senate representatives coordinate with the Senate Representative (SR), which are conducting the local business of Senate and Senate (SLL) under the auspices of the Senate Department. The Senate Survey created SLLs to actively provide leadership of Senate and Senate, highlighting various avenues of involvement. The goal will be to have the involvement of SLLs in the process of the organization, following a similar process.

The role of SLLs is to work with the cultural needs of the student body and to ensure the success of Senate Representative (SR) and Senate. This goal is achieved by providing SLLs and SLLs with opportunities that connect them with the student process of the Senate Department and the success of the organization.

The Senate Survey will provide a list of the organization's goals:

Objectives:

Dr. H. Harold Hill
President, Senate Department of
University of North Carolina

Programs to include

Non-Community Development - 20 items

Non-Transportation, Non-Health
